

CORPORATE STANCE FOR COMPREHENSIVE REFORM OF THE IMMIGRATION SYSTEM

Impelled by our mission of reconciliation and remembering our community history of being immigrants ourselves to the United States, we the Sisters of the Most Precious Blood of O'Fallon, Missouri affirm the rights of all immigrants to be treated with respect and dignity.

We call on our federal government leaders to work together to establish Comprehensive Reform of the United States Immigration System as outlined by the United States Catholic Conference of Bishops. We call on local and state leaders to create a welcoming atmosphere as they implement the immigration reform policies.

We Sisters pledge to actively support those who work to achieve just and humane Comprehensive Immigration Reform in the United States.
